HOBBIES AND INTERESTS

Science

I have always enjoyed learning about science because it helps me better understand the relationships between living things, and nature, and how they are interconnected.

Languages

I am passionate about learning languages because it helps me build meaningful connections and understand the perspectives of native speakers.

Music

I have a strong interest in learning the piano, but due to the ban on music under the current regime in Afghanistan, this remains an unfulfilled dream.

Art

I am really into art and love all kinds of it, especially the one I practice myself: calligraphy.

Technology

I have a strong interest in technology and its potential to drive innovation and improve everyday life.

VOLUNTEERING

[12/05/2021 – 15/05/2021] Kabul, Afghanistan

Clothing distribution to Orphan Kids

In May 2021, I volunteered with a humanitarian organization to deliver aid to an orphanage in Kabul, helping distribute supplies and support the children in a caring environment. I worked closely with a team of volunteers and connected with the children to foster a sense of care and community. One memorable moment was helping calm a

distressed child, which taught me the importance of empathy and communication. This experience strengthened my teamwork, problem-solving, and cultural awareness skills, and it remains one of the most rewarding things I've done.
